Guitar Magazine presents
GUITAR CHORD BUILDER (iPhone Apps)

GUITAR CHORD BUILDER is the most useful multifunctional application on iPhone for learning/creating guitar chords supervised and released by monthly Guitar Magazine. It allows you to create guitar chords, line them up, play them and enjoy them at your disposal. In addtion to incredible number of chords being preset as if one big chord book, you can create your own chord forms and chord progressions easily and freely. It can be used as a playable chord book or utilized for learning the music theories and composing. It's the ultimate multi-purpose-designed chord application for any guitar players at any technical levels to appreciate and make use of.

GUITAR CHORD BUILDER is the paid application allowing you to store your own chord forms and progressions. GUITAR CHORD BUILDER LITE is charge free without storage function.

Both GUITAR CHORD BUILDER and GUITAR CHORD BUILDER LITE are to be exclusively released on Apple's iTunes App Store at noon on 1st February 2011 (Tokyo time). Up until 1st May 2011, GUITAR CHORD BUILDER is being offered at ＄3.99 off the usual ＄4.99 to celebrate its first worldwide launch.
